Gel Yours The Real Nail Art

They're Jealous because of 'Gel yours'

Brand Story

"

Creating good values begins with the beauty at your fingertips!
Our efforts also focus on emotions and creating a world of coexistence.

“Gel yours” brings together tradition, modernity, and art to create a new culture of beauty. We research and develop authentic nail care and beauty items by redefining objects and patterns for change of ideas. In addition, we promote management while trying to serve public interests.

CEO MONICA JY KIM

Through various 'additional' colors, patterns, and ornaments, cultural identity can be expressed, preserved, and shared with a wider world. In this way, tradition in nail art holds a meaning beyond mere decoration, acting as an important link between individuals and their culture.

'Modern' in nail art means reflecting creativity and the latest trends, and embracing a design approach centered around change and diversity, unlike tradition.

Art

Reflecting the forms of everyday 'Life' in nail art is a process of elevating one's personal life into art and can be accepted as a way to express and share one's life and experiences.

Applying art to nail art means that this small canvas becomes a tool for expressing personal creativity and artistic sensibility. Through this, nail art transcends simple beauty practice to establish itself as an independent art genre.

Main Item

Re-usable Artisan Nail Tips

#Heat resistance

#Wear resistance

#Solvent resistance

#Chemical resistance

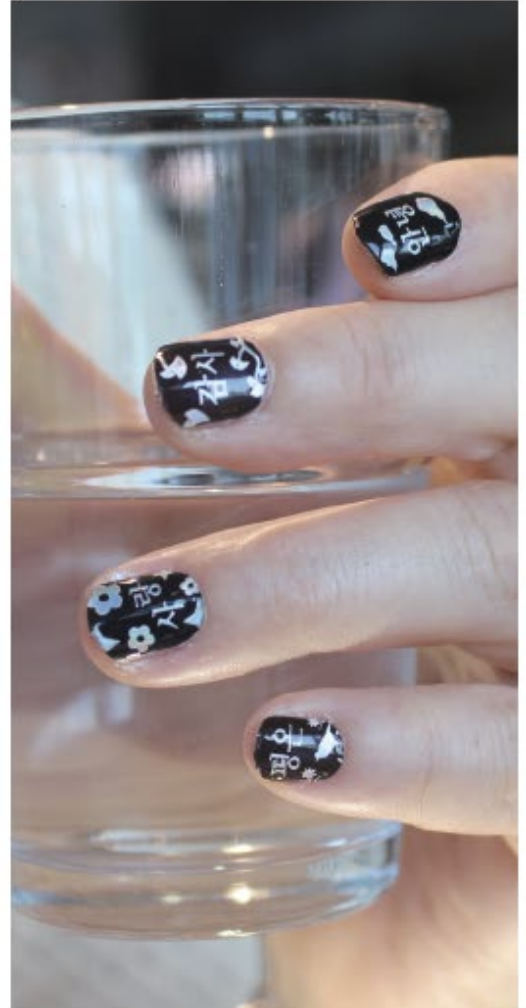

Our nail tips are made of TPU non-toxic plastic materials, making the products durable, flexible, and resilient, so you can use them many times by replacing only the nail adhesive tape several times.

It provides comfort under a light and soft fit without feeling of foreign substances.

It expresses natural glossy nail art with a smooth and high-shine surface treatment as if your nails were done at a salon.

We minimized the separation of nail tips and nails using our own 0.3T-thick nail-only adhesive tape and minimized the elongation of nail adhesive tape to minimize cuticle generation by nail tips. Nail tips are now like accessories, make changes to your style every day!

Buy and share nail tips with family and friends.

Business Information	At TWOK INTERNATIONAL Co., Ltd., we're all about making a big impact with small, thoughtful touches. We believe in self-beauty through home care, offering everything you need for nail beauty & care, scalp care, and skincare. Since our start in June 2023, we've been dedicated to creating top-notch products, handling everything from the design of our containers to the safety of our ingredients through our own research and development. We've already snagged two domestic patents and rolled out some game-changing products like the Air Gel Nail Color Spray, 3-in-1 One Step Gel Nail Polish, Gel Nail Press, and Gel Nail Strip. Plus, we added the Safe Scalp Detox to our lineup in 2024. We're driven by the belief that true beauty starts from within. That's why we give back a portion of our profits to support animal protection and education for women and children. We're committed to making the world a more beautiful and happy place for everyone.
